MEMORANDUM FOR: Executive Director
Deputy Director for Operations
Deputy Director for Intelligence

FROM: Director of Central Intelligence

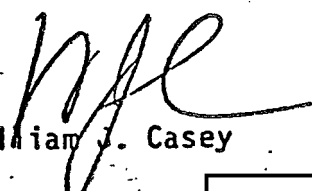

SUBJECT: Evaluation of Communist Parties and Activity

1. In reading this morning the report which just came in on the demonstration being planned by the Communist Party in the Philippines two things came to mind:

a. It is a poor report which deals with a matter of this magnitude without any indication what it's purpose is. Whatever the thrust is, the U.S. is involved as our Embassy appears to be one of the targets. Are we the main target? Is it a peace march?

b. I am convinced that we should have a current evaluation of the communist parties and their activity around the world and also the Socialist International. We know they are trying to support the peace movement in some countries and that they are tasking and developing support for insurgencies in the Dominican Republic and Honduras, etc. The group in [redacted] unit has compiled a vast amount of information on these activities but seems to have become moribund. When I reviewed his unit the man who gathered and commands the information is on the verge of retirement. Before he disappears we should have a concerted effort made to evaluate and update the current state of the picture he's been maintaining. I think we could send out a book cable to stations to see what the activities of the local Communist party and Socialist International forces involvements are. [redacted] current sheet has an interesting round up of Socialist International activities which could contribute a starting point to be evaluated and checked out.

✓ 2. I suggest that this is a CIA analytical project along the lines of the product of special activities done last year.

William J. Casey
